Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was a syringe for use with a power injector, wherein the syringe has a length of material that comprises indicators that reflect or redirect light in such a way that the light is detectable by a sensor in the power injector and wherein the light represents a code (usually a binary code) that provides information about the syringe configuration and orientation in combination with the other elements or steps of the claim.

The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
